LET EVIDENCE LEAD

The reform movement esSENSE Global has uncompromisingly exposed religious and secular superstitions in modern Kerala history. Litmus, a conference of freethinkers led by esSENSE Global and attended by tens of thousands of freethinkers, has left a golden mark in the history of Kerala's revival.

Started in 2018, Litmus will be here again on October 12, 2024 at Swapnanagari in Kozhikode, to write a new history of freethought. Flaunting the tag line 'Celebrate You,' bringing the message that the most you have to celebrate and express in this world is you yourself, Litmus '24 will bring many speakers to talk and interact on many topics including religion, politics, science, medicine, economy and society.

No healing services, no chanting or "homams," and no bowing before any religious deity - only democratic debates and questions generated by thoughts of knowledge, humanism and equality. Litmus is the cultural progress that determines the course of Kerala's history. You should be in it. Let us come together in Swapnanagari to make history.
